Park Ordinance Is To Be Discussed In Chamber Meet

New Road Fails To Lessen Parking Problem On Main Street

The rerouting of through traffic over the freeway through Truckee has not eliminated the parking problem in the main business section of town, N. F. Dolley, president of the Truckee Donner Chamber of Commerce, announced this week.

As a result, he said, the chamber at its meeting Wednesday at noon at Brown's Cafe will again take up the question of whether or not the recently enacted two-hour parking ordinance will be enforced.

Also adding to the parking problem is the fact that the Southern Pacific has asked that the chamber turn back the public parking lot which has been maintained on the railroad's property on the south side of the street during the past several months. The company needs the lot, Dolley was advised, as a place to put snow while clearing near the depot.

There is a possibility it can again be used during the coming summer months.

Dolley said he believes the two-hour parking ordinance is necessary to keep cars off the street which now are using the business parking area for permanent parking spaces, depriving many legitimate shoppers from a place to park during business hours.

Dolley asked anyone opposed to the enforcement of the parking ordinance to attend the meeting Wednesday and express themselves.

Champs Chosen In Squaw Ice Skating

In the chill of the huge new arena at Squaw Valley during the weekend, several west coast figure skaters moved closer to possible Winter Olympic competition by winning in the finals of the Pacific Coast figure skating championships.

Disappointing crowds watched the exhibition which was put on as a benefit for St. Mary's Hospital Guild at Reno and was sponsored by the VIII Olympic Organizing Committee.

Teen-ager Don Mike Anthony of Los Angeles won the senior men's championship with a smooth free skating exhibition before a crowd of more than 1,000 gathered in the new rink.

Anthony; Richard Braa of Fargo, N. D., second, and Harvey Belch of Los Angeles, who was third will compete with Eastern and Midwest winners in the 1960 national championships at Seattle January 27.

Ila Ray and Ray Hadley of Seattle won the 1960 senior pairs. The Hadleys, Jerry and Judy Featheringill, Tacoma, Wash., second, and Laurie and Bill Hickox, San Francisco, moved into the national competition and a possible shot at Olympic laurels.

Karen Howland, Sun Valley, Idaho, picked up the senior ladies' title in the frigid arena. Rhode Michaelsen, Los Angeles, was second. Mary Crowley, San Francisco, was third.

All three will compete in Seattle.

Truckee Area Fails To Share In Sales Tax In Past Year

Just how much sales tax money Truckee lost by not being an incorporated town, is difficult to determine but certainly it was a large portion of the $55,747 which went to the unincorporated areas of Nevada County.

Total sales tax revenue distributed to Nevada County and its two cities on a basis of third-quarter transactions amounted to $80,951 and the year before $69,970.

This is broken down as follows: Nevada County, $55,747, last year, $44,852; Grass Valley, $19,185, last year $16,967; Nevada City, $6,019, last year $6,142.

There are 51 counties and 317 cities that contracted with the state board of equalization for collecting the sales tax.

Johnson Returns To Capitol Office

Congressman Harold T. (Bizz) Johnson has returned to Washington where the 86th congress began its work yesterday with an extremely busy period ahead and a number of important matters to be considered.

During the three and a half months spent in the 19 counties of the Second Congressional District, which the congressman represents, he was on hand at noon yesterday when the gavel fell to call the congress to order.

Between September 14th adjournment and yesterday Johnson traveled more than 7,000 miles in the 19 counties, visiting many people every day, gaining suggestions and advise to assist him in his work in Washington. He wrote that he hoped the citizens of the district will continue to keep him advised of their wishes in order that he may best serve them. He can be reached by writing Room 1031, New House Office Building, Washington 25, D. C.

During his stay in the district, Johnson three times visited the Truckee area, once assisting in the dedication of the new freeway and again to visit Squaw Valley where he was largely instrumental in obtaining the Olympic Winter Games.

Loehr, Dolley Are Among Officers Due For Election

Both Are Expected To File Candidacies For June Primary Vote

Three supervisors, three constables and the respective Democrat-Republican central committees are the only contests in Nevada County at the June 7, 1960 primary election, County Clerk John T. Trauner announced.

Dates for filing nominations are from March 9 to April 8, Trauner said. The voter registration deadline is April 14.

If more than two persons contest for an office and one does not receive a majority vote then the two top men in the race must runoff at the general election on November 8.

Four year supervisorial terms are expiring for H. G. Loehr of Truckee, Mosca Smart of Nevada City and W. W. Bishop of Grass Valley and it is expected that all three will be candidates for reelection at the June primary, although none has announced publicly.

Also in Truckee, the term of Constable N. F. Dolley expires and he is also expected to announce for reelection. The term of Earl Rickard constable at Nevada City also expires and a constable will be elected for Grass Valley where a vacancy exists, although an appointment was expected to be made this week by the board of supervisors.

Every two years, new Republican and Democratic central committees are selected and both parties are allowed two from the fifth supervisorial district.

Good Record Made In Traffic Locally

Motorists who frequented this area during the busy New Year weekend responded well to the many warnings issued and as a result maintained a near-perfect record.

The California Highway Patrol reported only one minor injury accident for the long weekend.

There were 38 citations issued for moving violations and none of them for drunk driving.

Sergeant Frank Snyder expressed his appreciation for the efforts of the drivers to keep accidents to a minimum by obeying the rules and regulations.

Harry Herzog of North Sacramento, owner of Hill Top, was up this week to scan the many improvements and additions which have been made since July.

SUNBEAMS

By WALTER M. BARRETT

Having watched the weather pattern in this area for the past many years, we are somewhat amused with the current cloud seeding operations being conducted for the Olympic planners. We have never doubted that there will be ample snow in February to hold the games; this is almost a sure bet. However, we look with a great deal of skepticism on the efforts of individuals to coax nature to give forth snow when nature declines. Although the operations have been going on for several weeks now, we learn that precipitation for the area is five inches under normal while a blanket of only four inches of snow graces the hills, far below the average. We can't help but wonder what would have happened had there been no cloud seeding. We believe that the cloud seeding may be just as effective as the Indians dancing—another attempt to bring forth snow—but it is our firm conviction that we'll get snow when Mother Nature decides to bring it and not a minute before.

A good New Year resolution, and one which will profit both you and your community, is to trade at home during 1960. We feel that you will be ample rewarded and we know your community will benefit to a great degree.

Car Clouters Are Reported Busy In Summit District

Five Vehicles Are Looted After Windows Are Pried Open

Car clouting has resumed in the ski areas where skiers leave their vehicles parked beside the highway and five cases were investigated by sheriff's deputies on Donner Summit this week.

Harold Novikoff of Berkeley informed Deputy Sheriff Pat Patnoude that he lost approximately $150 worth of articles, including a coat, wallet and eye glasses after the thieves pried open a side window of the vehicle.

David H. Tracy of Woodside told Patnoude his car was looted of $73 worth of personal belongings after entry was gained by prying open a wing window.

A pair of valuable skiis was stolen from the parked vehicle belonging to Jack Scouten of Santa Madrid.

Kenneth Cameron lost a coat, camera and other items out of his car which was also pried open and Safarik Vladmir reported the loss of ski boots, a passport, driver's license and other things which had been left in his parked car.

A total of more than $300 in cameras, clothing and skis was the loss reported by George W. Tarleton of San Francisco who left his convertible parked along the highway on the summit.

All the thefts occurred during the New Year weekend.

Temperature Hits Low Of 10 Below

Truckee's temperature dipped to 10 below zero on January 2, 40 degrees being registered for high of that week on New Year's Eve.

According to Henry Toccalini of the U. S. Forest Service, the total precipitation for December amounted to only 1.52 when the normal is 4.48. The total precipitation for the season beginning in September to January 1 was 3.13 when the normal for the same period is 8.26.

OTIS HURSEY DIES AT PHOENIX HOME

A letter from Mrs. Otis Hursey in Phoenix, Arizona, tells of the death there of her husband, who expired December 22, following a brief heart ailment. Although he suffered a heart attack in 1952, which forced the family leaving Lake Tahoe where they had resided for many years, he had been up and about until 12 days before his passing.

Hursey was a native of Hazelhurst, Georgia, born October 26, 1903 and was the eldest of six children, four of whom survive, two sisters and a brother in Georgia and a brother in Virginia.

A son, Roger, lives in Yulee, Florida with his wife and three children and a second son, Robert, lives in Phoenix.

Interment was in the family plot at Fallon under the auspices of the Knights of Pythias of Truckee, Reno and Fallon. Hursey held a joint membership in the Knights at Truckee and Fallon and was past chancellor commander of the latter lodge.

Sanitarian To Give All Restaurants In District Inspection

Area Sanitarian Richard Walker this week announced that he is starting a thorough inspection of every public eating establishment in eastern Nevada County beginning next week.

Although not critical of any cafe or coffee shop in the area, Walker said the inspection is going to include each place and where necessary notices to correct any unwanted situation will be issued.

The inspection, he said, will include kitchens, dining rooms, sanitary facilities, dish washing processes, ice boxes and dishes. Nothing, he said, would be overlooked during the inspection.

"It is hoped to have every eating establishment up to the highest standard when the crowds start arriving for the Olympic Winter Games next month," Walker declared. "We don't want one hint of possible food poisoning from our area, and we are going to make certain this doesnt' happen."

Power Failure Hits Wide Local Region

They say you never miss the water until the well runs dry and this same theory applies to our electricity. This is especially true in a community which depends upon electric power as much as this one does.

The power failure Monday night shortly after eight o'clock blacked out the entire region from Winnemucca to Donner Summit and from Portola to South Tahoe, a radius of 15,000 square miles. The fault, located at the Drum power house, was with the Pacific Gas & Electric Company which had the failure on the lines supplying the Sierra Pacific Power Company, which in turn provides power for the Truckee Public Utility District.

This immediate area was more fortunate than most as the power was off here only ten or 15 minutes while at Reno and other surrounding communities it was dark for an hour or so.

Here briefly heating thermostats were put out of business, gas pumps refused to operate, television shows were interrupted and even cash registers were put on a hand-operated basis and flashlights and candles were much in evidence.

During those few minutes, many people learned again just how dependent we are upon our utilities.

Future Of Squaw Valley In Doubt Following Hearing

Beaches and Parks Board Apparently Unhappy With Proposal

Hearings before the assembly ways and means committee in San Francisco early this week brought out one apparent fact — the division of beaches and parks does not welcome taking over the state owned facilities at Squaw Valley on an operative basis.

A number of suggestions were made but it was quite obvious that the recent law requiring that the facilities be incorporated in the state park system is not popular with the beaches and parks people.

Will Rogers, Jr., of Hollywood, a member of the park commission, bluntly told the committee that California should get out of Squaw Valley after the games, abandoning its $8,000,000 investment. He said money for parks should be spent on picnic areas, beaches and that the state had no business pouring more money into specialized recreation that private industry should be operating.

Sterling Cramer, a member of the California Olympic Commission, testified that if the facilities are consolidated under state operation, the valley would become a "worthy addition to the state park system."

Suggestions were made to enact legislation providing for further condemnation of lands in the valley to give the state more operating room; to lease the facilities to private operators and to sell what was saleable and move out.

Just what action will eventually be taken remains for the future action of the legislature and various commissions and boards.

Among those testifving before the hearing was Alex Cushing who opposes the condemnation plan and who has offered to lease the state facilities for private operation, paying the state a percentage of the profits.

The state holdings were labeled monstrosities and white elephants by southern California representatives.

Wayne Poulsen, largest valley landowner said there is no need for further condemnation but urged the state not to lease the facilities to let one man control all the lifts in the valley. He suggested leasing the state's lifts to the highest bidder.

DEPUTIES TO TRAIN FOR VALLEY DUTIES

Deputies from the sheriff's department in Placer County have been moved to Sqaw Valley for preliminary planning for policing the valley during the Olympic games next month.

Presently there are five men in the squad but this will be increased to 50 during the staging of the games. Sheriff William A. Scott, who will direct the operations, said the five men will be housed in trailers.

The cost of policing will be borne by the Olympic planners but Placer County will foot the bills and then be reimbursed by the state. A budget of nearly $50,000 has been set up for this detail of the games.

Scott said that most of the men will be from the standing auxiliary force of the department with others to be drawn from neighboring police agencies.

On January 15 and 16 a school in public relations, international law and other functions of policing will be held in Squaw Valley.

VAN SICKLE TELLS OF DAMAGE BY QUAKE

Mr. and Mrs. Lloyd Van Sickle and family returned two weeks ago from West Yellowstone, Montana and plan to spend the winter at their home here.

The Van Sickles were in the heart of the tragic earthquake which rocked that area and claimed many lives last summer. Their home was badly damaged but they escaped personal injuries.

Van Sickle said the temperature was 40 below there in November and they are glad to be back in the "warmth" of this region.

HUGE SUM IS ASKED IN DAMAGE ACTION

A suit totaling $183,390 has been filed in the Nevada County Superior Court by a couple and their daughter charging William Frederick Muller and several John Does with negligence when he collided with them half a mile east of the Donner highway maintenance station.

The plaintiffs are John Ott, Viola Ott and Linda Ott. The accident occurred September 6, 1959.

General damages asked totals $150,000 with the balance for medical costs, wages and other incidentals.

P. O. Tahoma, Lake Tahoe

Young 1960 doesn't seem to be making any "warm" friends. A frigid entrance if we ever felt one. It was reported that frozen pipes were legion and Kings Beach and Tahoe Vista were without water for two days. What we need is some warm insulating snow.

* * *

Paul and Barbara White of Sacramento spent a few days with parents Joe and Blanche at Tahoma. Young Leslie, Rodney, Jay and Keith had a fine time fashioning a snowman.

* * *

Dr. and Mrs. Brochard and children were at Tahoma for the holidays.

* * *

Young Jim Hicks of Tahoma is working after school and on weekends at the ski shop in Squaw Valley.

* * *

The young Griffith Tullys of Sacramento and the Jeryl Fryes of San Jose were at the Fryes Meeks Bay home.

* * *

Mr. and Mrs. Charles Black of Acampo and the Glen Blacks of Santa Cruz spent a few days here last week. Glenn and Margie are set to meet the Euel Pritchetts in Arizona for a safari into Mexico.

* * *

Bill Bruder of NBC, Hollywood, enjoyed his first Tahoe vacation at Tahoe Pine Lodge during Christmas and is all set for a return visit.

We apologize to recently wed Carol Gossman of Seattle for naming her Carol Campbell, instead of Carpenter when we announced her wedding last week. We wish the Jack Gossmans all happiness always.

Dinty Moore, president of the Lake Tahoe Ski Club, reports the following results of the FWSA approved giant slalom of Donner Ski Ranch at the Sugar Bowl last Sunday:

Girls Class 3, one entry: Barbie Lerch, Yuba-Sutter, 67.4. Class 2 for boys: Teddy Lerch, Yuba-Sutter, 56.8; Wayne Poulsen, Lake Tahoe Ski Club, 57.16; Boys Class 3: Gregg Moore, Lake Tahoe Ski Club, 56.9; Frank Hanson, Yuba-Sutter, 72.6; Pete Huckins, Yuba-Sutter, 110.6.

Class 4: Boys and Girls in Class 1, 2, and 3: (ran once on shorter course) Girls: Christine Corum, 36.8; Debbie Zorich, 42; Pamela Lerch, 45.6. Boys: Lance Poulsen, 28.5; Paul Sullivan, 31.6; Dennis Hanson, 34.1; Robert Coats, 114.4. Boys Class 5: Mark Sullivan, 39.6; Eric Poulsen, 41.4; Ted Hall, 46; Francis Coats, 69.6. In classes 1, 2, and 3, the scores are combined totals.

What might have been a tragic calamity occurred when Mark Sullivan caught his ski pole in the lift, and hung about 15 feet in suspension above the ground for some five minutes until his father and a ski patrol arrived. Then his ski pole broke and he fell 15 feet onto the two men, which broke his fall, but knocked the two men down. This fall that put Mark back somewhat in the next race.

The Alfred Ducatos of Burlingame enjoyed the holiday at Tahoe. The Charles Thieriots of San Francisco celebrated with a party, and some of the Poetts of Sunnyside came up. Mr. and Mrs. Albert Miller had a house party and with them were Mr. and Mrs. Robert Watt Miller of San Francisco. The Hank Alriches of Lincoln were at Tahoma. The boys were home from Justin School in Phoenix and somewhat disappointed at the lack of snow. Unlike the lucky Tahoe students, the boys don't get a long holiday in February to enjoy the Olympics.

Jerry Lewis, formerly in the cement and gravel business in Truckee, but now retired, bought a home at Carnelian Bay and spent the holidays there. His wife and son Courtney are in Sacramento where the son goes to school. They'll be up next summer. Lewis is now interested in real estate. When he first came to the lake he workedfor Henry Kaiser.

Bobbie and Foster Record of Tahoe Pines received word that their son, Mayton, is now on the Regimental Rifle Team at Camp Pendleton.

"Frenchy" (Roger) Carter, bartender at Tahoe Inn, was glad to see old friends, Mr. and Mrs. Nick Negas of K-VUE, Sacramento, who drove up to enjoy the snow.

Mr. and Mrs. Jerry Carpenter of San Francisco came up for the weekend championship skating at Squaw Valley. Jerry will be remembered for his frustrated efforts in the 20's and 30's to popularize winter sports in California, through his job with the chamber of commerce. At that time "snow" was a verboten word in speaking of sunny California, so the battle was uphill all the way. Jerry's foresight has certainly been vindicated now that he's retired. No one hesitates now to publicize the greatest winter sport area of them all — sunny California. Dear old Florida can never hope for this double pay-off.

WEATHER

What a thing to talk about. For the past week, it has been 10 above zero and not been above 20 degrees all day. The reservoir froze up solid and three parts of Kings Beach have been without water. We were lucky to have ours out only Saturday. At 4 p. m. we have been supplying our neighbors (Klitzkes) with a few buckets of water. The day before Alice and Carl Sorensen brought us a couple of buckets of water. Now Sunday 6 p. m. the temperature is 9 degrees, pretty cold, huh?

OLYMPICS

Yes, they will soon be here. So we have to impress our world visitors with beautiful Tahoe and as usual, our Crystal Bay Club is going all out to help—and in a big way too. You will see an ad in this issue regarding same. It was the intention of the Kings Beach area to join as one and decorate our community, but it didn't work out so our friends, the Crystal Bay Club, decided to do something about it and very generously offered and the offer was accepted. A prime rib buffet will be served from 8 p. m. until midnight on January 22. The proceeds will go to the decorations committee. For information see Stevenson, Dorothy King, Joe Dolce, Mrs. Robert or most business places will have tickets available.

VISITING

Saw Paul Schubert here Sunday, was original owner of Here 'Tis Restaurant. He has his young son with him and was staying with the Cloyd Sipes at their spacious motel. Their home is a Glendora.

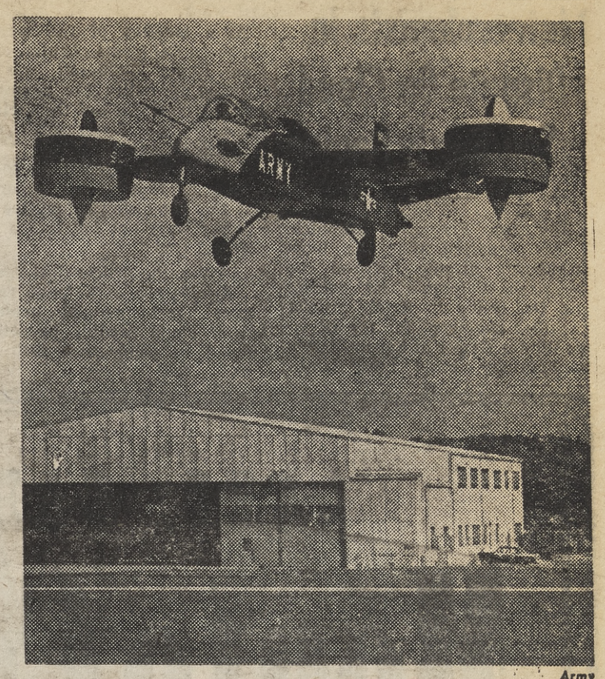

DECORATIONS

Kings Beach each winter is like a ghost town with most of the main thoroughfare boarded up, so we should now take the shutters down and let a little sunshine in—show our world visitors there really is a town called Kings Beach.

We hear that Tahoe Vista has already had donations to cover decorations in that community.

HOVERING in for a vertical landing at Fort Belvoir, Virginia, is a promising experimental vehicle known as the Doak 16 VTOL (vertical take-off and landing) aircraft. Recently flight-tested for and by the Army, the Doak 16 has ducted fans mounted on the wing-tips which rotate through 90 degrees, point straight up for vertical flight like a helicopter or straight ahead for high-speed, long-range flight like a conventional airplane. This VTOL was designed, constructed and tested for the Army Transportation Corps by the Doak Aircraft Company of Torrance, California.

INHERITANCE TAXES WILL SHOW INCREASE

SACRAMENTO—(CNS) — The statement that costs are going up, from the cradle to the grave, is more than just an idle complaint, especially after January 1.

The 1959 legislature enacted a bill which makes it more expensive to die — that is, if you have an estate to pass along. The law increased inheritance tax rates for all persons by removing the deduction of federal estate taxes aid.

In addition, it raised the rates for inheritances left to aunts, uncles, cousins, or persons of no blood relation. The total increase was expected to bring in some $8 million a year.

At the other end of the picture, after January 1, the costs of birth, death and marriage records will be doubled. The present cost is $1, and, in 1960, it will be $2, according to Dr. Malcolm H. Merrill, state Director of Public Health.

This fee increase will double the present $600,000 a year collected from issuing copies of these records.

RENEWAL NOTICES ON VEHICLES IN MAIL

SACRAMENTO — (CNS) — Weary postmen might have thought they had it made when the Christmas rush ended.

But the state department of motor vehicles dumped some 6 million pieces into the mail just after Christmas as it sent out notices of motor vehicle license renewals.

Now, to make things worse, the franchise tax board has mailed 4.1 million state income tax returns. Early on the morning of Dec. 28, two trucks began hauling the notices from the board office to the Sacramento railway freight docks. They're attempting to get them all mailed before bulk postal rates increase on Jan. 1.

The first annual convention of the American Legion was held in Minneapolis in November, 1919.

The Sun-Maid Raisin Growers of California, with headquarters at Fresno, was organized in 1923.

Meteorologists In Dispute On Cloud Seeding In Region

The San Francisco Chronicle Friday reported that the long-smoldering dispute between the American Meteorological Society and Dr. Irving P. Krick, official "weather engineer" for the Olympic Winter Games at Squaw Valley in February, burst into flames last week.

At a meeting of the society's Northern California chapter, chairman Elmer Robinson was instructed to notify the games organizing committee of the society's "concern and displeasure" with Dr. Krick's appointment.

Robinson said, according to the Chronicle, that it is important that the organizing committee "as a public body not fall into a promotional trap."

At issue, the article declared, is Dr. Krick's use of a longe range forecast for his possible exploitation of cloud seeding operations planned in connection with the games.

"In addition," said Robinson, "our group is not happy with the fact that the man selected by the organizing committee is not an A. M. S. member and is therefore not bound by the society's concept of professional ethics."

Long range forecasting, in the sense used by Dr. Krick, involves the day by day predicting of precipitation months in advance. For instance, Dr. Krick's first forecast for the month was issued two years in advance.

"In the opinion of the society," the Chronicle quotes Robinson as saying, "this is a scientific impossibility. To call these 'forecasts' does meteorology a disservice."

Dr. Krick from Denver termed this a "political dispute."

"We have been periodically subjected to these letters," Dr. Krick said. "The A. M. S. represents 99 per cent of the meteorologist in the United States, of which 95 per cent are in the government. It's really a difference in views between private enterprise and government."

Krick has been at odds with the A. M. S. for several years and withdrew from membership in the spring of 1958 after charges of unprofessional conduct were brought against him within the society.

As to cloud seeding, currently being practiced in this region without any apparent results, Robinson said the society's main concern is that there is no way to prove one way or another that the operation is effective.

"We feel it would be too bad," Robinson continued, "if, for instance, a county board of supervisors were prevalled upon in the future to conduct cloud seeding on the basis of results at Squaw Valley. These results simply would be indeterminable."

"BEST FOR LESS"

DONNER DOINGS

By VIRGINIA O'BEAR

This is the first week in a brand new year called 1960. I hope it is a happy and prosperous one for all and hope that everyone enjoys every single day throughout the year. This holiday season has taught me many things that I'm afraid I have just taken for granted each year. For instance, the Christmas tree. Is there anything so saddening as a tree stripped of all its glitter and tinsel and beautiful decorations and put beside the garbage can to be hauled away? And the mistletoe, all dried and shriveled up from hanging over a doorway so people can kiss beneath it? The quietness in the home after the children go back to school and the many things to be done and you wonder where to start? We all experience these things. Some are glad that it is all over for another year and yet some are wishing that it could have lasted just a little longer and that our loved ones could have stayed just a little longer, too. We can all have an enjoyable year and appreciate the little things in life every day and when the holidays roll around again, we will have our mistletoe and Christmas trees and joyous get-togethers which some of us can only have once a year.

* * *

Neighbors and friends of Mr. and Mrs. A. St. Clare of Donner Lake will be happy to know that they arrived back home Sunday after a six week trip to Philadelphia. They drove there and back and enjoyed the trip both ways as Claudia said the weather was just wonderful the whole six weeks. The highlight of the trip of course was the large formal wedding of their son and new daughter-in-law, in Philadelphia. All of us are happy that they had such an enjoyable time and glad to have them back home.

Mr. and Mrs. Gayland Speck of Sacramento spent the holidays with Mr. and Mrs. Hank Slack. Mrs. Speck is Mrs. Slack's sister and even though Dorothy has been ill with the flu bug, they had an enjoyable time.

* * *

Speaking the flu bug. I have had a very long seige of it this winter. It started before Thanksgiving and I am just now shaking it. When I get something I really get it good but I'd just as soon have it pass me by.

Mr. and Mrs. J. (Hap) Warnke had Dr. and Mrs. Charles Widenmann and children as their guests over the New Year's holiday. The Widenmanns are from Vallejo and have nearly completed their "vacation" home here, as their children call it.

* * *

Dr. Robert Affeldt is still as busy as ever in his office even though he has a broken foot and has it in a cast. It all happened before Thanksgiving when he and all the other firemen were called out to put out a fire in a burning automobile in front of the Ted Franklin home. Doc thought he just sprained it but after suffering with it for ten days, went to a doctor and after it was x-rayed discovered it was broken. We are all hoping that the bone mends successfully and the cast comes off in a few more weeks.

C. Edmunds, a member of the Nevada County Planning Commission Board received a notice that the meeting scheduled for January 11 had been postponed because of legal technicalities which have to be ironed out at a meeting in Nevada City on January 11. Mr Edmunds will notify us and it will appear in next week's paper as the time and place will be decided upon that evening. It is believed the date will be set for January 25 but that date is indefinite until the meeting on the 11th. This meeting concerns the zoning of Donner Lake and there will be two attorneys to handle the procedure when the Nevada County Planning Commission meets with the people of Donner Lake. Please keep in mind that there will be a meeting and when we find out where and when let's go.

Mr. and Mrs. Eugene Welch just returned from a week's trip where they visited with their son, Russell Miller in Denver, Colorado. Russell is associated with the Frontier Airlines there and was most happy to see his folks. The Welchs were glad to get back home as they said it was colder in Denver than it is here.

Friends of the Roger Brown family are happy that they are not leaving Donner Lake. The division of highways had planned on sending Roger to Downieville but decided they needed him here more so they are happy that they won't have to move away and change schools for the children.

Our own Jimmie Heuga, junior, is doing well on his tour with the Olympic training squad. He spent several weeks in Aspen, Colorado, and came home for 11 days during the Christmas holidays. During this time he rested, skiied at Squaw Valley, and took a trip to Mammoth Mountain, to do some pleasure skiing.

The U. S. Olympic team will be announced January 10 and it is hoped that Jimmie will be among the lucky eight. He is sixteen and the youngest member on the training squad. We wish him luck and are very proud of him.

THE SMALLER THE RECORD, THE BETTER—Automatic data processing in the modern U.S. Army is reducing all the information needed on a soldier to a one-inch strip of magnetic tape. Photo above shows the bulky "201 File" which contains a soldier's service record, the same information reduced to a punch card, and further reduced to the magnetic tape strip held in the palm of a hand. In an amazingly short time an automatic data processing center can, for example, compile a roster of Chinese-speaking reservists in the First Army, or the number of Catholic chaplains in Korea or the number of expert riflemen at Fort Bragg, North Carolina.

WORKING RELIC—This pre Franco-Prussian War relic is still operational at headquarters of the U.S. Army's 36th Artillery Group, in Germany, as a retreat cannon. Here PFC Allan B. Pearlman closes the breech in preparation for firing the salute while PFC Edward S. Blewett adds the sharp notes of his trumpet to the retreat ceremony. The old cannon speaks its piece through the simple expediency of placing a fireworks bomb in the breech, lighting a half-inch fuse and firing away. The modern Army artillerymen admire the old-timer for the amount of noise it makes.

AFFAIRS OF STATE
by Henry C. MacArthur

SACRAMENTO — (CNS) — On January 1, 1960, California entered into a new experiment designed to cut down the increasing highway slaughter and injury, as well as the economic loss, caused by automobile accidents.

The new experiment is a fixed 65-mile per hour speed limit, which is no news to anyone who has read the newspapers since the state legislature fixed the limit on the recommendation of Governor Edmund G. Brown during the 1959 session.

Despite the fact this change in the law is not newsworthy, it nevertheless deserves comment on going into effect, for several reasons. First, it affects nearly seven million licensed automobile drivers in California, who have been used to going fast as they chose, as long as they considered the highway safe for high speed.

Consequently, the new law will demand a change in the driving habits of a good many of these drivers.

Second, the speed limit is fixed. Once the needle tops 65 miles an hour, the driver is in violation of the law of the land, regardless of whether or not he gets caught.

Consequently, it will be as much of a crime to top the speed limit as it would be to commit petty theft, or any other misdemeanor that might be mentioned. Getting caught is incidental to the fact that every time a speedometer shows more than 65 miles per hour, the driver knows he may be subject to a fine for speeding.

Third, it's going to be difficult for drivers who normally travel between 70 and 80 mph (like this writer), to acclimate themselves to the new law. To help, it must be remembered there are no excuses for exceeding the 65 mph limit. A considerate patrolman might accept one at times, but this is unlikely, as the highway patrol has heard them all. And a considerate judge might be lienient in a case of real distress. But regardless of this, there will be no legal excuse.

Many people do not believe the 65 mph limit will do much toward solving the accident situation, and may attempt to disregard the new because of this disbelief. These could be destined for one of three places, the easiest of which will be "good morning judge," the next easiest a hospital bed and the worst, a slab in the local morgue. None of the prospects appear enticing.

The new law was recommended by Governor Brown because he felt that something drastic should be done toward making California's highways safe for the traveling public. Only time will tell whether this is the right answer, but in any event, the governor deserves support in his attempt to cut down on the fantastic toll of death and injury caused by careless driving.

It is, therefore, up to the public to determine whether or not excessive speed is the prime cause of accident, and it is up to the public to give the governor a fair shake in compliance with the law, so it can be definitely established, one way or the other, whether the 65 mph limit will have some effect on the safety of motorists.

The highway patrol cannot be every place at once, and consequently, the conscience of the individual driver will be a prime factor in resolving the case.

NEW YOUTH CENTER FOR DELINQUENTS TO BE AT STOCKTON

SACRAMENTO—(CNS) — Governor Edmund G. Brown announced he will ask for an appropriation in February to construct a 400-capacity youth authority institution north of Stockton, the first of a planned group of 12 units on the same site.

The initial school will be for boys in the 13 to 15 age group. It will be built on the former Stockton State Hospital farm north of Stockton and will be known as the Northern California Youth Center.

The grouping of institutions will have central management budgeting and accounting, food preparation, personnel management, hospital, laundry and other joint facilities. This will result in substantial savings over duplicating those services in each institution.

A similar constellation of institutions, with central service facilities, is planned for southern California. The first operational unit of the center will be the new youth training school near Ontario, which will be opened January 4.

Brown said he will include funds in the 1960-61 budget for plans for the northern center. The first unit, with a 400 capacity, will have living units accommodating 50 wards each.

Heman G. Stark, CYA Director, said the authority anticipates it will need space for 7,061 wards by June 30, 1969, compared to the present need for less than 4,000.

School Band Plays At East-West Game

The Tahoe Truckee High School Band traveled to San Francisco early Saturday morning to participate in the activities before the East-West football game, and in the demonstration at half time.

More than 40 bands were invited to the event: some 30 high school bands from Washington, Oregon and California; a DeMolay bag-pipe band from Trenton, N. J., Napa J. C. band, two Army bands, and a group of Shrine bands including three regular marching bands, an Arabian band and several mounted groups.

The massed bands, parading at half time were a spectacle that will long be remembered, not only by the throngs in the stadium but by the audiences who saw it on channels 8, 3 and 4. Bay area radio stations carried the full program.

Following the game, the group had dinner at DiMaggio's, on famed Fisherman's Wharf, and spent the night at the YMCA family hotel..

Chaperones were: Mr. and Mrs. Ross Price, C. W. Sciutto, Mr. and Mrs. Ron Barker, and Andy Baumgartner, JV coach.

Band members attending were: Doug Ball, Cathy Barker, Pauletta Brown, Bill Benish, Don Bradley, Sharon Brown, Scott Calhoun, Dick Cinani, Al English, Al Eberhart, Merrill Englehart, Jim Grady, Keith Holden, Judy Giovannoni, Lin Giovannoni, Larry Mandeville, Donna McReynolds, Sam Medford, Gene McGihon, Sue Moyer, Daven Morey, John Olinghouse, David Pankoke, Randy Pomin, Paul Quartly, Tim Risden, Larry Rollison, Dorette Rose, Dusty Rhoades, Sue Scott, Jim Schull, Joe Sheehan, Donna Stumbo, Joe Straub, Randy Schultz, Mitch Terkeldsen, Tom Terkeldsen, Bill Thornton, Mary Thorwaldsen, Garry Taylor, Leonard Watts, Don Wienand, Gary Wing and John Wirth. Doug Doolittle and Billie Wilbur were assistants to Mr. Price.

The majorettes were Terry Beck, Teresa Decker, Patsy Jensen, Mary Pratt and from the elementary school, Debby Pratt.

BENEFIT DINNER TO AID DECORATIONS

KINGS BEACH—A drive to decorate the highway between Kings Beach and Tahoe City for the 1960 Olympic Winter Games during next month was given a boost with the announcement by Crystal Bay Club that a benefit dinner would be held there Friday, January 22 between 8 p. m. and midnight.

The proceeds from the dinner, being donated by the club, will be turned over to the decorating committee to give the Kings Beach, Crystal Bay area the required money.

The evening will be enlivened by an orchestra and dancing and everyone is invited to turn out and have fun as well as assist in a worthy cause. A charge of $3.50 per person will be made.

JV's Meet Del Oro In Game On Friday

Tahoe Truckee High School's inspired JV's return to action this Friday night in the local gymnasium when they host Del Oro High School. The Cub reserves will play the Del Oro B squad at 6:45, with the main feature beginning immediately thereafter.

The Wolverines, currently sporting a 3-1 record, will take the floor by seeking to make the Eagles the first team to be beaten twice by a Tahoe Truckee team this year, having won a hard-fought 41-40 contest earlier in the season.

The Cubs have also made a good showing by disposing of Quincy 51-42, and revenging their only loss by bouncing Sparks 49-47.

Coach Andy Baumgartner is expected to start the same five that began at Sparks, with John Holley and Dave Decker at forward, Doug Baxter at center, and Benny Ferrari and Terry Walker at guard.

The chief threat from Del Oro will be captain Gary Hess, who notched 16 points for the Eagles in the earlier contest.

The Friday game will be a last tuneup for the local before taking to the road to meet the powerful Winnemucca Buckaroos on Saturday, January 9. Winnemucca's JV's badly outplayed the Sparks club which gave Truckee its only loss.

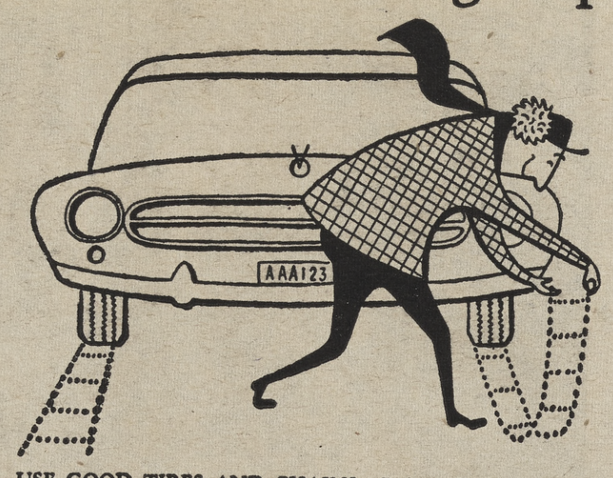

To help with festivities, the TnT School Band, directed by Ross Price, will be on hand to provide fans with an enjoyable brand of music.

Admission will be fifty cents for adults, and twenty-five cents for children.

Probable starting lineups:

Winter Driving Tip

USE GOOD TIRES AND CHAINS—Before driving into the mountain snow country be sure to have good tires and chains. The effectiveness of tire chains is greatly reduced unless they are "fitted" to your tires says the California State Automobile Association. During periods when chains are required no vehicles are allowed to enter the snow areas unless they have chains fitted to the rear wheels.

SKIING IS REPORTED GOOD IN DONNER AREA

SUGAR BOWL—With 24 inches of snow on Mt. Lincoln and 16 inches at lodge level, skiing at the Sugar Bowl is good on most runs and Mt. Lincoln and both rope tow hills.

The chair lift was running at capacity during the holidays when Sugar Bowl observed its 20th birthday. The lodge and other facilities are in full swing and there have been no complaints on the snow.

Bill Manning of Littleton, Colo., has joined the Sugar Bowl staff and entertains with his electric guitar.

The Sugar Bowl will host the Australian Olympic team which will move in on January 10.

WATER SERVICE AT LAKE IS RESTORED

KINGS BEACH—Water service to the Kings Beach area was restored nearly to normal Sunday. Service was cut off New Year's Day when the main transmission line from the Griff Creek reservoir froze.
